

Bridging the Gap Between
Tech and Talent

Who We Are

Your business relies on technology to thrive but managing technology can feel like taking on another full-time job. TM Floyd & Company (TMF) takes IT off your schedule and puts it into the hands of a specialist. As a national leader in staffing, consulting, and contracting, we provide a pipeline to technical talent to help you grow together.

Why Us?

TMF has been the link between companies and career paths for IT professionals since 1976, but we don't rest on our reputation. It's built on a proven process that combines business, technical, and domain expertise to deliver results that provide flexibility and resiliency for all stakeholders.

People Power

- Technology is a tool, and people will always be a company's greatest resource. At TMF, we recognize this as fact.
- We're dedicated to putting people first no matter what side of the equation they're on. By cultivating a network of unmatched IT professionals, we enhance how your team performs.

Our Solutions

Innovation is born by assembling creative thinkers, planners, and doers. At TMF, that's our job. We start with learning about your needs and your company, then we build outwards to find solutions that give you a competitive edge. **We focus on:**

- Strategy
- Technology
- Talent

01 Strategy

- Successful strategy involves more than where your business is now. It's about how you want it to grow. By getting a sense of your current operation and vision for the future, we develop a roadmap to take you there.
- Our consultative approach aligns with your mission to deliver customized solutions.

02 Technology

- Implementing technology effectively doesn't mean jumping on the latest trend for the fastest possible rollout. Our solutions are custom-designed to deliver results while aligning with your strategy and culture.
- Always keeping your financial resources and timeline in mind, we focus on finding the solutions that fit your business.

03 Talent

- Talent is the final piece of the puzzle, and TMF delivers with an unparalleled recruitment process to secure the industry's leading IT professionals.
- If your business needs an onsite/remote team or a singular specialist, we have experienced consultants ready to work.

“Trust is only gained over time through competence, doing what you say you are going to do, and having an enjoyable experience working together. Companies have trusted TM Floyd & Company for many years to meet their IT consulting and staffing needs. We look forward to an opportunity to earn your trust.”

John Starmack
CEO, TM Floyd & Company
