

Who We Are

As a national leader in IT staffing, consulting, and contracting, TM Floyd & Company provides companies with a pipeline to technical talent that helps them grow together. We address business, technology, and operational challenges while providing opportunities for IT professionals. Combining a versatile approach and a time-tested process, our business, technical, and domain expertise delivers results you won't get from other firms.

Where Strategy, Technology, and Talent Intersect

What We Do

Consulting

Our services include everything from strategic planning and project management to technical and operations support.

Staffing and Recruiting

We offer opportunities to professionals ranging from recent graduates to senior-level managers and assist you throughout the recruiting and hiring process.

Why We're the Best

End-to-End Service

We're not just here to hire and be done. We stick with your business from placement and beyond.

System Agnostic

We work with all types of IT for cross-platform capabilities other companies can't match.

Bespoke Solutions

All of our delivery models are fully tailor-made, not one-size-fits-all.

Geographical Availability

We place talent across the US.
